**24/7
OPERATIONS**

**MISSION
COORDINATION**

**EMERGENCY
RESPONSE**

The eyes & ears of the base.

Command Post controllers maintain the operational picture and move time-sensitive information to the people who need it.

01 Maintain situational awareness

Keep a current picture of missions, incidents and installation activity.

02 Coordinate critical actions

Use checklists, notifications and agency coordination when time matters.

03 Support leaders and agencies

Brief commanders and connect organizations across the installation.

04 Report and document

Complete required reporting and preserve an accurate operational record.

The work can be quiet - until it isn't.

Controllers prepare during routine periods so they can respond accurately when the pace changes.
